

23 APRIL 2007

## AZZURRI RECOGNISED ONCE AGAIN AS ONE OF THE UK'S FASTEST GROWING ENTERPRISES.

Azzurri ranked 41 in The Sunday Times PricewaterhouseCoopers Profit Track 100 league table.

Newbury, UK, 23rd April 2007: Leading converged business voice and data company, Azzurri Communications, is celebrating today after being placed in the Sunday Times PricewaterhouseCoopers Profit Track 100 for the second year running.

Profit Track 100 ranks Britain's fastest-growing medium-sized private companies by profit growth over the last three years.

"To be placed in the Sunday Times PricewaterhouseCoopers Profit Track 100 for the second year running is fantastic. Our growth and profitability go hand in hand with the hard work put in across the whole Azzurri team and adds further weight to our compelling proposition. We are delighted to add another accolade to our success," commented Martin St Quinton, CEO, Azzurri Communications.

This recognition follows a great start to the year for Azzurri, with an impressive list of achievements including placement in The Sunday Times Deloitte Buyout Track

100 in February of this year and, more recently, winning Best Customer Service and Best B2B Provider awards at this years Mobile News Awards.

Azzurri has been applauded for driving gross profit, up by 33.6% alone in 2006 to a sizeable £24.2m. Particular reference has also been made to Azzurri's strategic acquisitions and consolidation in the converged voice and data market.

Azzurri's customers include B&Q, Visa, University of College London Hospitals (UCLH), Target Express, Tesco, Cadbury Schweppes and Lloyds TSB.

Profit Track 100 is compiled by Fast Track and published in The Sunday Times each April, with an awards event in June and regional dinners throughout the year.
